Our Mission

The Caribbean Court of Justice shall perform to the highest standards as the supreme judicial organ in the Caribbean Community. In its original jurisdiction it ensures uniform interpretation and application of the Revised Treaty of Chaguaramas, thereby underpinning and advancing the CARICOM Single Market and Economy. As the final court of appeal for member states of the Caribbean Community it fosters the development of an indigenous Caribbean jurisprudence.

Our Vision

To provide for the Caribbean Community an accessible, fair, efficient, innovative and impartial justice system built on a jurisprudence reflective of our history, values and traditions while maintaining an inspirational, independent institution worthy of emulation by the courts of the region and the trust and confidence of its people.
